

## 2015-16 Canadian Fertilizer Products Forum (CFPF) Program

**Date:** November 23-24, 2015

**Location:** Delta Ottawa City Centre - Ottawa, ON

**Meeting Description:**

This strategy session will formulate industry position statements related to regulatory modernization and other key topics for the new federal government. Please note that due to the proximity of the federal election, government employees are prohibited from discussing policy initiatives until the new government is in place. Thus, CFIA staff are unable to introduce the new Fertilizer Regulations at the time of the CFPF. This will be introduced for consultation at a later date via webinar. For the fall meeting, CFIA will report on service delivery standards, registration backlog and conduct a half-day training session on product registration submissions.

**Meeting Objectives:**

- Develop industry position statements for new federal government;
- Provide various industry updates and discuss issues of importance to the sector;
- Receive information and training from CFIA

**Day 1: Monday, November 23, 2015**
