

Fertilizer Shipments Survey, first quarter 2020/2021

Released at 8:30 a.m. Eastern time in *The Daily*, Monday, November 16, 2020

Data on the shipments, production and market inventories of fertilizer in Canada are now available for the first quarter of the 2020/2021 fertilizer year.

Note to readers

Changes in methodology were made to the Fertilizer Shipments Survey beginning with the November 2019 release. For more information on the methodology changes, consult [The Integrated Business Statistics Program](#).

Data on fertilizer statistics had higher rates of estimation for the 2019/2020 fertilizer year, as a result of higher non-response rates for this period. These data may be subject to revision.
