

Canadian Fertilizer Products Forum

November 16, 2022
Fertilizer Safety Section

Objectives

- To provide update on Service Delivery Standards (backlog report and remedial actions)
- To share highlights of Fertilizer program administration (results of marketplace monitoring, process changes and document updates etc.)
- Provide status report on electronic submissions (*MyCFIA*) and strategies to address poor quality submissions
- Hear from other Government Departments on initiatives that impact the fertilizer and supplement sectors
- **Propose strategies to assist industry in transitioning to the amended *Fertilizers Regulations* by October 26, 2023 deadline**
